

Driving Superior Mission Outcomes with

SMART CLOUD COMPUTING

- ➔ Operationalize hybrid and multi-cloud architecture
- ➔ Enhance operational performance
- ➔ Automate monitoring and remediation
- ➔ Accelerate time to value

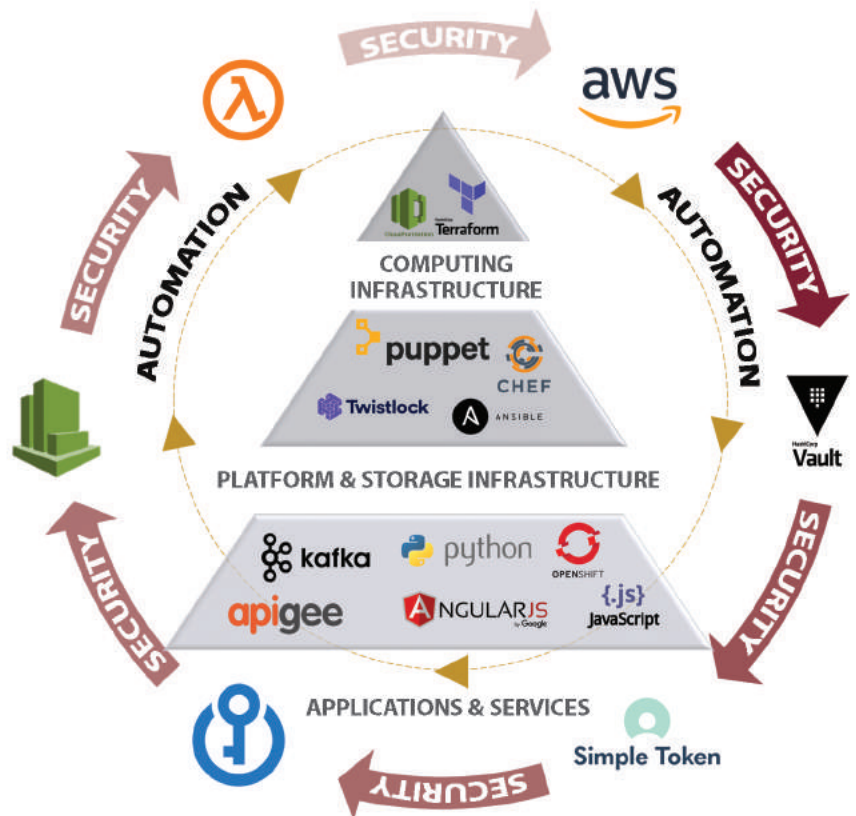

WHO WE ARE

Simple Technology Solutions is an 8a HUBZone multi-cloud service provider. We work across all layers of the cloud computing stack designing and implementing solutions in Amazon Web Services (AWS), Microsoft Azure (Azure) & Google Cloud Platform (GCP).

AUTOMATION, AGILITY & OPEN SOURCE are at our core. An unwavering commitment to our customers' MISSION drives us. And our dedication to DEVELOPING LOCAL TALENT ensures our skillsets evolve with the rapidly changing technology landscape.

WHAT WE DO

- Cloud strategy and consulting
- Multi-cloud and Hybrid-cloud architecture
- Implementation of FedRAMP-certified GSS's in AWS, Azure & GCP
- Migration and refactoring of applications to cloud-native
- Automation – network, infrastructure, platform and application
- Security engineering and automation – compliance, monitoring, remediation & identity and Access Management

ADVANCED CERTIFICATIONS

- ⇒ 50+ Technical and Business Certifications
- ⇒ Re-seller and hosting capabilities
- ⇒ Commercial, Public, and GovCloud experience
- ⇒ Experience designing and implementing microservices, hybrid-cloud & multi-cloud architectures

APPRENTICESHIP PROGRAM

Developing Local Talent to Keep Pace with your Needs.

STS is committed to developing local IT talent in the DMV. We offer a Cloud Computing and DevSecOps Engineering Apprenticeship Program, accredited by the Government of the District of Columbia.

STS's Apprenticeship Program aligns with market demands and serves as a consistent pipeline of junior to mid-level talent. Created in-house, our mentorship team continually updates the curriculum to meet new technology requirements and changing needs. Our "mentoring model" ensures STS Apprentices jump the maturity curve with immersive training and real-world experience.

The Apprenticeship Program is a key feature of the STS culture and a major driver behind our +98% retention rate.
